King Charles III

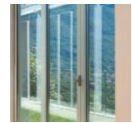

Queen Elizabeth II

- Materials are what something is made of e.g. wood, plastic, metal and glass.

Glass is used in windows for houses and cars because you can see through it. It is used in mirrors as well because you can see your reflection.

Metal is used in the construction of planes, cars and trains because it is strong.

Wood is used for making doors and other furniture and this is often a special type of wood.

Plastic is moulded and easily shaped so it can form different objects such as buckets and bottles.

We live in England which is in the United Kingdom.

The capital city of England is London.
